WE STOCK A WIDE  
RANGE OF TRAILERS  
TO SUIT ALL YOUR  
REQUIREMENTS

## LIGHT DUTY SINGLE AXLE TRAILER

(Domestic Use)

Available sizes: 6x4 - 7x4

Our entry-level box trailer is perfect for customers with small vehicles that can't tow heavy loads on their own. These lightweight trailers include such standard features as a smooth floor with mudguards, flat-side walls up to 320 mm high, 3 leaf slipper springs rated at 600 kilograms combined, a draw bar with 50x50 square hollow section steel, tie rails and a removable tailgate.

## HEAVY DUTY SINGLE AXLE TRAILER

(Domestic & Commercial Use)

Available sizes: 6x4 - 7x4 - 8x4 - 8x5

Our most popular trailer is perfect to use around the home or on a work site. These heavy-duty trailers include such standard features as a checker plate floor and mudguards, press-bent side walls with extra bracing on the mudguards and draw bar, 5 leaf slipper springs rated at 1,000 kilograms combined, a draw bar using 75 x 50 rectangle hollow section steel, tie rails on all 4 sides, and removable tailgate.

## TANDEM AXLE BOX TRAILER

Available sizes: 8x5 - 9x5 - 10x5 - 12x5 - 8x6 - 9x6 - 10x6 - 12x6

GOLF BUGGY TRAILER with hinged ramp

TRADESMAN TRAILER

A tandem axle box trailer is better suited for drivers who need to carry heavy loads. All of our tandem axle box trailers are fitted with mechanical override disc brakes using Ford Bearings. Other standard features include a checker plate floor and mudguards, press-bent side walls with extra bracing on the mudguards and draw bar, side walls up to 320mm high, 7 leaf springs, a full square hollow section chassis, a draw bar using rectangle hollow section steel, tie rails on all 4 sides, and a removable tailgate.

## CAR TRAILER WITH A FLAT DECK BEAVER TAIL

Available size: 14ft x 6ft 6"

Our car trailer comes with the same good-sized deck, but doesn't require rails along the top thanks to its upgraded chassis. This is a popular choice for vehicles with low ground clearance because of its 4-inch rear beaver tail. This car trailer includes such standard features as an extra-strong RHS chassis and draw bar, a checker plate floor with mudguards, a rear beaver tail with a 4-inch drop, mechanical disc brakes, slide-under ramps, front and rear tie points, 7 leaf springs, 45mm solid square axles with Ford bearings and 12-volt LED lights.

## COMMON UPGRADES & ACCESSORIES

Single axle trailers can sport the following upgrades:

- Mesh cages
- Steel Toolbox
- Hinged Ramp
- Ladder Racks

HINGED RAMP

MESH CAGES
